

**National Fire Prevention Week
at
Cushing Community School
October 8, 2008**

Our students learned about fire safety awareness through a great program put on by the Cushing Volunteer Fire Department. Members of the Fire Department came to our school and put on presentations for our 2nd, 3rd, and 4th graders, which included an opportunity to check out one of the department's fire trucks. The Kindergarten and 1st grade students had a great time walking to the fire station to see the fire trucks there and for a tour of the station.

Thank you, Cushing Fire Department, for sharing your knowledge of fire safety with our students.
